2 Compartment locker for vertical or horizontal distribution
Grey frame, Ultramarine Blue doors

This 2-compartment locker is part of the Eurostyle NG range of Laundry lockers. This model is equipped with clothing rails for vertical distribution for hanging professional garments. It can also be used for folded garments. All lockers have a master key for the main door with various types of locking systems for the compartment doors. This line includes a range of laundry lock up models with different sizes, for soiled garments.

- Space-saving compact size
- Longlife powder-coated steel
- Master key for main door
- Individual cam lock for compartments doors
