Professional garment lockers

Laundry lock-up

460000/101

This new set of lockers is entirely produced with INOX AiSi 304. These products are available on request and subject to minimum order quantities. Compared to standard steel lockers, stainless steel offers superior resistance to rust, easier cleaning, and a longer lifespan—making it ideal for high-humidity or hygiene-sensitive environments.

These lockers are the ideal solution for the food industry and other sectors that demand state-of-the-art, hygienic, and durable storage systems.

- Space-saving compact size
- Master key for main door

Optional slope top and INOX stand
