

Innovative Solutions For Laundry Lockers & Hygiene

LOCKERS

Leading innovative solutions
for your Industrial Laundries.

We have been manufacturing metal locker systems for rental work garments for more than 50 years.

Two different locker ranges (Eurostyle and Chang-O-Matic) offer solutions adapted to every need. Whether for folded or hanging garments, large or small capacity, for commerce, services, industry, or the health or food sectors, we can deliver lockers in the appropriate sizes and layouts for any rental garments proposed.

LAUNDRY LOCKERS

Garment Collectors

Eurostyle

Lockers for folded garments.

The Eurostyle range of lockers has been designed for folded garments. Eurostyle lockers are very strong thanks to high density riveting. The heat-treated epoxy coating increases their corrosion resistance.

The range includes a wide choice of different sizes.

- > Space-saving compact size
- > Longlife powder-coated steel
- > Master key for main door
- > Individual cam lock or combination lock for compartments doors
- > Stability thanks to numerous aluminium rivets (stainless steel)

Change-O-Matic

Lockers for folded and hanging garments

For more than 30 years, we produce Change-o-Matic garment lockers. This range established our leading position as a supplier of robust locker systems for the textile rental service market. In this line, we offer a 10-compartment standard locker, a 9-compartment locker and a 10-compartment locker for large volumes, designed for folded garments. Both can be completed with bulk collectors.

- > Extra-wide compartment door swing: 180°
- > Individual cam lock or combination lock for compartments doors
- > Ventilation holes for better air circulation
- > Particularly safe locking by triple latch lock system
- > Master key for main door
- > Durable powder-coated steel
